The guards say they thought it was a military airship and its mission was unfriendly. There is much excitement and it is certain Germany will demand full reparation. The wounded balloonist with his three dead companions beside him, succeeded in opening the valve and landing.

Washington, Aug. 12.—Forty-six arrests were made at the capitol during the session of congress just ended, according to a report just made by Captain McGraw, chief of the police force at the capitol. The offenses were all of a minor nature. Thirty-seven dogs were impounded. The most interesting part of the report deals with the articles found, which were of an infinite variety, including a boy's sled, two insurance policies, a peddler's bag, 11 card games, 29 umbrellas, a laprobe, 11 bicycles and a lady's fur neck piece valued at \$785. About 85 per cent of the found articles were returned to their owners.

## THE WEATHER.

Today has been a scorcher, reaching the summer's maximum when the thermometer climbed to the 97 mark at 2 o'clock this afternoon. The few minutes' visit of Jupiter Pluvius only steamed up things about noon. The lowest temperature for today was 80.

## SCHOOL LEAGUE BEING HELD HERE THIS AFTERNOON

Mrs. C. E. Purcell Presents  
List of Question to the  
Teachers.

## All But One of Them Are in Attendance.

PROF. BILLINGTON WILL LEAVE

Only two teachers of the county school corps are not in attendance at the McCracken County Institute, and these are prevented by illness. Superintendent S. J. Billington said today that he was pleased over the attendance despite the fact that the weather has been sultry. This morning arithmetic, literature and school discipline were discussed by Prof. T. J. Coates and the teachers.

Improvement League.  
This afternoon the School Improvement League was represented at the Institute and Mrs. C. E. Purcell, the organizer, made an address to the teachers. Following the address the officers of the McCracken County Improvement League will be elected, and plans for next year discussed.

To arouse and inspire the organization of school improvement leagues a meeting is being held at the McCracken County Teachers' Institute this afternoon at the county court house. Mrs. C. E. Purcell, organizer for the 13 counties of this district for the Federation of Women's Clubs has prepared questions to be asked the teachers this afternoon, which The Sun prints.

Already ten counties have been organized by Mrs. Purcell. Next week she will go to Eddyville for the purpose of organizing a league. The questions supplied by Mrs. Purcell are as follows:

Name of school. Name of teacher. Average attendance.  
How many children of school age in your district go to NO school? Why? What can remedy this? Have you a good school yard? A fence? Walks? Grass? Trees? Flowers? Is there a good play-ground? Have you TWO good out-houses? Are they serviced?

What is the source of your drinking water supply? Is your house well lighted? Have you a good roof? Good floor? Good walls? What is especially needed to improve the buildings?

Have you desks? Blackboards? Shades? Maps?

Number of books in library and what kind? What pictures? Is there a line around the stove to distribute the heat more equally? Have you towels, pans, combs, and mirror for the children's use?

Have you individual drinking cups? Have you a reading table of your best periodicals? How many patrons have visited your school this term?

Have you a School Improvement League? If not, form one at once.  
Prof. Billington to Resign.  
Prof. Sam J. Billington, county school superintendent, will resign his office this month, and early next month will leave for Elliston, Mont., where he has been elected principal of the graded school. It is his intention to make Montana his home permanently, and in addition to his school work will practice law. Several months ago Professor Billington was admitted to the bar.

This is his fourth year as county school superintendent and he has made a conscientious school official being popular over the county. He will hand in his resignation this month as it is his intention to begin his school work in the west next month. Previous to his election as school superintendent he was a teacher, and his new position will place him in charge of the graded schools of Elliston, which is near Helena. Superintendent Billington resides at Lone Oak.

## Banks Find Counterfeit Dollars.

### HORRIBLE CRIME.

Chicago, Aug. 12.—Mrs. Mary Singer, a widow, 62 years old, was found dead by her son on returning from his night work early this morning. Police believe she was murdered by burglars. At first it was supposed she died of heart disease as she was sitting in her chair with an open book on her lap, but bruises on her throat show strangulation. It is believed burglars choked her, when she was resisting them, placing her in the chair and the book before her.

### Depositors Rolled Bad

Dollars Up With Good Not Knowing Presence of "the Queer".  
Three more spurious silver dollars were brought to light today, when all the banks went through the rolls of coins deposited by such concerns as make a practice of rolling their money for convenience in handling before depositing it.

The search was made following the revelation of a flood of bad money Tuesday night. Several negroes, who came here to celebrate Emancipation day, turned loose bad money among the concessionaries over the city, and Robert Hoopwood, of Louisville, is being held. Federal officers have been notified and are making an investigation. It was thought that more bad money might have been collected and turned into the banks in rolls, and that is what induced the search today.

A gang of counterfeiters has periodically been flooding southern Illinois, southwestern Missouri, western Kentucky and West Tennessee with their products, and although some of the "shovers of the queer" have been caught, federal officers have never yet been able to get their hands on the makers of it.

The police department received a message today from the government service, and full particulars of the work have been sent to Louisville. The police estimate that fully 50 of the curious coins were placed in circulation. All of the banks counted their silver money today and several bad coins were discovered.

### CANT USE WINE MASH.

Commissioner of Internal Revenue Makes New Ruling.  
Washington, Aug. 12.—Rectifiers are prohibited from making wine mash and using it for the production of compound liquors. In an order issued by the acting commissioner of internal revenue, the order becomes effective the first of September.

The practice of rectifiers making a wine mash and using it for the stated purpose of producing home made wines, has been in existence several years. A growing industry has been the result and under it there have been many frauds.

Officers of the internal revenue service have found that distilled spirits have been put on the market without the payment of the internal revenue tax. In the future wine mash will have to be used on distillery premises.

### Curly Broker Gets Writ.

New York, Aug. 12.—Justice Lehman in the supreme court granted a writ of habeas corpus to Donald L. Persch, the curly broker, arrested on the charge of the larceny of \$110,000 in copper stock belonging to Heinze. The district attorney is preparing for immediate grand jury action to rearrest Persch on a new warrant. He promises arrests of prominent financiers.

There have been only a few cases of typhoid here this summer and the city is doing all in its power to prevent further spread of this dreaded disease.

### OHIO VALLEY MEN WILL CONVEY AT CINCINNATI NEXT

Mr. S. A. Fowler received information this morning from J. F. Ellison, secretary of the Ohio Valley Improvement association that the fifteenth annual convention of the association will be held in Cincinnati, at the Simpson hotel, October 14 and 15. The latter said that great prominence has been given the Ohio river within the last few months by the report of the special board of engineers which called the attention of congress to the fact that the Ohio river has been and probably will always be the direct route for heavy tonnage. The report has attracted a great deal of attention to the Ohio river and its claims for improvement and for the first time the association has a Cincinnati man as president of the United States and a Pittsburgh man as secretary of state, which should during the next session of congress have an important bearing upon the legislation favorable to the river.

These waterway conventions will assemble in every section of the union and a representative, who has not been selected yet, will be sent to the convention from Paducah.

### PATENT GRANTED LOCAL INVENTOR FOR CAR BRAKE

A hand brake that is expected to replace the air brake on street and suburban cars has been patented by R. E. Rudolph, 1525 North Thirteenth street. If successful the brake no doubt will succeed the complicated air brake, as Mr. Rudolph says his brake is as simple as the hand-brake and almost as quick as air in stopping a moving car. To apply the new brake it is necessary only for the motorman to move the brake handle about ten inches. The brake is known as a friction power brake and operates on the axle as well as the wheels of the cars. Another advantage over the airbrake is that the brake-shoe will remain tight indefinitely, while an airbrake will loosen after it has been applied some time. Mr. Rudolph already has received letters from traction companies and practical tests will be given the invention on heavy cars. Mr. Rudolph is a florist. He has been working on the brake several years.

## HARRY THAW RETURNED TO MATTEAWAN

### JUDGE FINDS HE IS STILL VICTIM OF DELUSIONS AND DANGEROUS.

## GREAT SHOCK TO FAMILY, BUT HIS LAWYER IS NOT SURPRISED.

White Plains, Aug. 12.—Harry Kendall Thaw today was sent back to Matteawan an insane man. Justice Isaac N. Mills filed his decision, denying Thaw's application for release, for which he has been fighting ever since he was sent there by Judge Dowling. The decision reviewed all the testimony of former trials.

The decision says it is certain Thaw is afflicted with paranoia not yet cured. It says although himself immoral, he gave weight to the White stories. He believed a delusion about an attempt of his attorneys to railroad him to Matteawan. It declared Thaw is not a prisoner undergoing punishment, a jury declaring him entirely innocent. He simply is an unfortunate being treated. He must be guarded so as not to injure himself or others. It says neither preference nor discrimination against him should be shown because of his wealth and social position. It says his being set at large would be dangerous to a community.

The decision was a shock to Thaw and his family. Judge Mills will receive motions this afternoon on judgment at his apartments in Mount Vernon.

### Lawyer Not Surprised.

Poughkeepsie, N. Y., Aug. 12.—Morsehauser, when told of the decision, said he was not surprised, as Thaw's own conduct on the stand did not help the case any.

### Did Not Find Warth.

Simonstown, Cape Colony, Aug. 12.—The British cruiser Forte returned here today after an unsuccessful search for the steamer Warth, during which a distance of 1,320 miles was covered. The Warth, a British steamer, has been missing since July 26, when she sailed from Port Natal. She had no board ninety-three passengers and a crew of 207 men.

### Washington Can Not Decide.

Washington, Aug. 12.—Washington people may not decide for themselves whether liquor may be sold or given away in the district. If the district commissioners have anything to say about it. The board today forwarded to congress an unfavorable report on the bill recently introduced by Representative Lamb of Virginia, authorizing citizens of the district to vote on the excise law.

### SULTAN READY TO HELP.

Madrid, Aug. 12.—It is understood that Sultan Haifa of Morocco has notified Spain of his readiness to send troops into the Rif region to chastise the Moors and establish peace. Spain, however, replied that this guarantee was not sufficient and orders have been sent to Gen. Marina, who has nearly 40,000 troops at his command, to proceed against the Moors in the neighborhood of Melilla.

### Would Send Troops Into Rif Region To Assist Spain.

Washington, Aug. 12.—Refusing to be taken to the hospital, although perhaps fatally injured until the promise was made to him that the person who injured him would not be arrested, Rev. Wm. P. ## NECK BROKEN

AUSTIN MORGAN, OF BENTON FALLS OFF PORCH.

Went Out to Get Cool and Chair Tumbled Over—He Died Instantly.

Benton, Ky., Aug. 12.—By a fall from his rear porch, Robert Austin Morgan, one of Marshall county's most prominent citizens, was instantly killed last night about 9 o'clock. He fell five feet, striking on his head, breaking his neck and dying instantly. Owing to the warm weather Mr. Morgan was only partially

dressed and went to the porch to cool, when his chair was unbalanced and he fell. Mrs. Morgan saw her husband fall and went to his assistance when she discovered he was dead, and gave the alarm.

Mr. Morgan was a native of Marshall county, and for many years was a shoemaker and merchant. By his attention to business he built up a good trade, and during his life time residence near Benton made hundreds of friends. Besides his wife Mr. Morgan left a brother, Marion P. Morgan, of Athens, Tex., and a sister, Mrs. Wills Burd, of Benton. Mrs. Lora Nannery, 719 Harrison street of Paducah, is a daughter while two sons reside in Benton. R. L. Ely, of Paducah, is a cousin.

## "UNCLE HENRY" DEAD.

Oldham County Slave Passed Away at 105 Years.

Lagrange, Ky., Aug. 12.—Henry Lord, colored, aged 105 years, died here of old age. He was born at Petersburg, Va., December, 1803. He was a slave of William Gibson, son of Jonathan Gibson, a wealthy political leader of Virginia. Lord's wife, Jane, was born in Oldham county in 1814 and was the slave of Nat Dowden, a prominent farmer.

"Uncle Henry," as he was familiarly known, often had a crowd about him listening to his stories. His favorite story was the star-falling time in 1833, when everybody thought the world was coming to an end. He was the father of five children, three girls and two boys. "Uncle Henry" claimed to be the only person in Kentucky to have great-great-grandchildren.

Don't rejoice too much or mourn too long.

## JEFFRIES AND JOHNSON SIGN

FINAL DETAILS TO BE AGREED ON AFTER CLUB OFFER.

Money to Operate as Side Bet on Fight—Take Place Not Later Than 6 Months.

EACH MAN MUST POST \$5,000

Chicago, Aug. 12.—Articles of agreement for a fight between Jack Johnson and James J. Jeffries for the heavyweight championship of the world were signed here.

Sam Berger, manager for Jeffries and Geo. Little, Johnson's manager, and Johnson himself were present when the articles were signed. Little, however, had nothing to do with the arrangement of the terms. Articles prepared by Jeffries were given to Johnson. After perusing the paper Johnson handed it back, remarking that they were satisfactory. He then outlined what he considered to be a satisfactory agreement.

A warm discussion followed, and for a time it looked as though the meeting would be without result. Berger objected to any mention of the purse in the articles, but finally yielded this point. Johnson was equally insistent on the omission from the agreement from all reference to Jeffries as heavyweight champion of the world. Finally all reference to this was omitted, and the agreement was made as follows:

### The Agreement.

"Formal agreement entered into on the 11th day of August, 1909, between Jack Johnson, of Galveston, Texas, and James J. Jeffries, of Los Angeles, Cal. It is agreed between these men mutually that they box a certain number of rounds, from 20 to 100, for the heavyweight championship of the world.

"The contest will be held before the club offering best inducements and mutually agreed upon by the contestants.

"The division of the purse is to be on a basis of either 50 per cent to the winner and 40 per cent to the loser, respectively, or 75 and 25 per cent, or the winner may be permitted to take the entire amount. The decision on this matter rests with the said Jeffries.

"A sum of \$5,000 each is to be posted with Charles A. Conkey, of Chicago, as guarantee of good faith and the fulfillment by each side of the terms of this agreement, said money to be posted within seventy-two hours. It is further agreed that said \$5,000 shall operate as a side bet on the result of the contest.

"It is further agreed that the club to be selected and mutually agreed upon shall be decided on within sixty days from date, at which time all further details will be mutually agreed upon.

"The contest is to take place not later than six months from the date of selecting the club and the signing of the final articles."

### Gambler Clings to His Money.

It comes easy, but it goes out hard. The popular phrasing of it is "Easy come, easy go," but the story of experience is that it gets away from them while they are making a doglike fight to protect it.

Do you know of any old-time gamblers who became millionaires who have anything now?

Do you know of any of them who trilled away their competence in riotous living?

Do you know any of them who but for the lure of the new rich?

Do you know any of them who drank, smoked or gambled against the other man's game?

Do you know any of them that did seek to invest his money in securities out of which others had become rich?

Do you know of one who, when he had acquired it, did not seek legitimate channels in the way of investment?

Do you know of one who ever made a bad bone of business property?

Do you know of one that did not try to turn square and live down his past?

Do you know of one who did not send his children to a good school and have some one teach his children to forget what their father had been?

Did you ever hear of one who advised anybody to follow in his own footsteps?

Did you ever see one who kept it after he, through various courses, had concluded he had enough?

I shall quote from memory when I set down the following:

Michael C. McDonald—One-time king of the gamblers and political boss in the most gambling field in the world. Quit, turned square, went into the stone and real estate business. Died of a broken heart, leaving a heritage of woe.

George V. Hankins—McDonald's contemporary and successor. Income estimated at \$3,000 a day for twelve years. Owner of a mansion in Michigan avenue. Owner of a racetrack and stable of horses. Winner of the American Derby. Pioneer in building of apartment houses in Chicago. At last accounts outside doorkeeper at the Southern club in Hot Springs.

Pat Shesley—Most picturesque sporting character that ever trod the pave in Chicago. Never drank, smoked or had any "complication." Charitable. Art connoisseur, made a lot of money. Now broke in New York.

Urt Gana—Necly trained. Got rich. Had no social or stock exchange ambitions. Kept enough to keep him from worry.

Willy Skafel—Retired, about 12

years ago when he saw the blow coming. Has a cow farm at Avon, S. D., and a few blocks of real estate in Chicago. Had his clutches on a million at one time, but quit when he realized he was up against a string of losers.

Wesley Schimmel—Society on the real estate lay all his life. Was not averse to being identified as a purveyor of chance, but never took liberties with his money. Now living in a first-class neighborhood and collecting rents.

Cy Jaynes—Down and out, perhaps, but apparently well cared for. Mike Malory—Doing a little hand booking and looking fairly well.

Silver Hill Riley—Picking out life's fleeting spots at Tucson, Ariz.

Morre Adolph Remond, commonly and affectionately known as "Bud," victim of his confidence in others and his own good nature. Never realized that he was not making the best use of his talents. Gave it away when he got it. The first man who ever enunciated the principle, "Always give a gentleman what he wants."

Dan Stuart—Purely an accident. Never made a dollar through his own initiative, but still has 'em.

Ed Bradley—Wheast of fish that ever shuffled a deck. Owns a hotel in Chicago and a string of tailoring establishments, a club house at Palm Beach, a stock farm in Kentucky and a stable of race horses which he keeps as playthings. Will never have less than he has now, unless he is caught asleep with some of it off him. —Chicago Tribune.

## BOLIVIA HAS NEW CABINET

FOREIGN SITUATION THOUGHT TO BE IMPROVED.

Gen. Pando, Minister of Foreign Affairs, Was Once President of Republic.

FAVOR THE PERU BOUNDARY

La Paz, Bolivia, Aug. 11.—The threatening situation growing out of the approaching change in presidential power in Bolivia, who is not friendly to Argentina, is to be succeeded to tomorrow by Elmore Villazon, who is in favor of accepting Argentina's decision in the boundary dispute with Peru. The formation of the following ministry:

President of the Cabinet—Angel Diaz de Medina.

Minister of Public Instruction—Sanchez Bustamante.

Minister of Interior—Alejandro Soriano.

Minister of War—Gen. Andres Munoz.

Minister of Agriculture—Eusebio Zozarza.

Minister of Foreign Affairs—Gen. Jose Manuel Pando.

Gen. Pando was once president of the republic. It is believed that his acceptance of the portfolio of foreign minister will save the country from serious difficulty with any of her neighbors.

**Denies Chile Is to Help.**

Santiago, Chile, Aug. 12.—Foreign Minister Edwards denied in the senate today the charges that Chile had recently offered to help Bolivia in case that country came to hostilities with Peru as the outcome of the boundary decision. He said the attitude maintained by the government has been most correct, and declared the charges which were formulated by an ex-charge d'affaires of Bolivia were without foundation.

**WANTS ENCAMPMENT.**

Gen. E. N. Coffey Addresses Meeting at Vicksburg.

Vicksburg, Miss., Aug. 12.—An address was delivered here to a large audience of business men by First Lieutenant E. N. Coffey, of the United States army, upon the subject of the army maneuvers to be held next summer. Vicksburg, under the leadership of Mayor J. J. Hayes, has been making a hard fight for the location of this camp of instruction for some time, and the address was by invitation of the board of trade.

Lieutenant Coffey is now on duty here at the state rifle range with the National Guard team now shooting there, and his address was strictly along military lines. The audience was very much interested in the talk, and a more determined movement will be put on foot.

## IRRIGATORS ASK \$5,000,000,000

ONE BILLION FOR DEEP WATERWAYS PROJECT.

National Irrigation Congress in Session at Spokane Wants "Ample Funds"—Ballinger Speaks.

ONE ALSO FOR GOOD ROADS

Spokane, Wash., Aug. 12.—Delegates to the National Irrigation congress set about to relieve the arid land situation, today when resolutions beginning with a request for "ample funds," and ending with a resolution asking for a fund of \$5,000,000,000 were introduced.

The resolution for a national 3 per cent bond issue of \$5,000,000,000 was introduced by the secretary of the board of control, Arthur H. Hooker of Spokane. It is proposed to use this fund in five portions as follows:

One billion for drainage; one billion for irrigation; one billion for deep waterways; one billion for good roads and one billion for forest preservation.

It was asked that a committee present the request to congress. R. A. Ballinger, secretary of the interior, and George Otis Smith, director of the geological survey, spoke on the classification of public lands.

**Ballinger Speaks.**

Secretary Ballinger of the interior, spoke on the attitude of the administration toward the reclamation of arid land in the west. He said in part:

"While the government has invested over \$50,000,000 in irrigation works, many times that amount has been invested since the passage of the reclamation act by private enterprises, and it is safe to say that a large portion of these private investments have resulted from governmental example and encouragement, and let me say here that it has not been and is not the policy of the national government in the administration of this act to hinder or interfere with the investment of private capital in the construction of irrigation works, but rather to lend it encouragement.

"This is particularly true in reference to irrigation under the Carey act in the various states.

"While it is possible that persons of limited means may successfully enter and acquire irrigated lands, it will generally be found that it is not a poor man's proposition, unless coupled with intelligent industry in agriculture.

**West Sees Importance.**

"The people of the west, who are familiar with the wonderful results in irrigation, are highly appreciative of the importance of the reclamation service, but the great difficulty which the service encounters is in finishing the projects now undertaken, against the clamor for a diversion of funds to new fields. In this respect the service has suffered in not carrying to completion a less number of projects than it is now engaged in construction. I cannot conceive of anything which will contribute more to the permanent wealth and prosperity of the reclamation states and territories than the continued construction on the broadest possible scale of irrigation works.

**Good Work For Congress.**

"This congress could accomplish no greater work beyond the stimulation of interest in the development of irrigation than to secure uniform water regulations in the states and also uniform legislation affecting interstate waters.

"Ours is a nation of greater resources and possibilities. Its wealth is greater than that of any single country, even of France and Germany combined, and this wealth is increasing at a fabulous rate. Much of it has been accumulated by the destruction, by the sacrifices and waste of nature's gifts, and it is a fortuitous circumstance that the country has been brought to understand the importance of utilizing and saving our natural wealth and making it possible for the nation to continue to prosper, and for the generations that are to come to have some share in that prosperity. For this reason, if for no other, work of reclamation of the arid and semi-arid lands of the west is worthy of first importance in the development of the nation's resources. Every acre of irrigated land will be needed in the nation's economy.

"In a century we have passed from a purely agricultural country to an industrial and commercial country, but we have not outgrown the necessity for agriculture."

**"There's a Reason"**

### VENGEANCE WAS HIS MOTIVE. Ex-Convict Got One Old Pal and Was After Three Others.

New York, Aug. 12.—James McSorley, the ex-convict who killed Daniel M. Fenton, a hotel keeper, in Middletown, N. Y., had started out with the intention of "getting even" with three other men with whom he was at enmity for having had a hand in sending him to prison for stealing a tray of diamonds in Newark, N. J., according to statements made by members of the New York detective force.

McSorley, they say, mentioned

Chief of Police Cosgrove, of Newark, Fenton, a burglar known as "Iron Gaul Kid" and another "underworld" member as belonging to "the gang" that had turned against him, and every member of which he had vowed to kill. McSorley was particularly vindictive against Fenton, the detectives say. They quote him as asserting:

"Fenton was my bosom friend for years. He was to be put on the jury and it was fixed that he was to stand for acquittal, no matter what evidence was put in against me. All went well until the trial came off, when old Fenton turned on me and voted for conviction and I got 10 years."

## STATE PRESS.

**Clinton Gazette.**  
In McCracken county the board of education mapped out a plan to consolidate two or more schools, and in order to satisfy those who would be some distance from the school house, it was planned to furnish free transportation morning and evening for certain pupils, the expense to be paid out of the school money. Everybody not being satisfied with the arrangement, a test suit was brought in the circuit court and Judge Reed held that there was no law for it. If the court of appeals upholds this view of it there can be no consolidated schools in Kentucky until the law is amended.

## Callaway Times.

Murray's correspondent to the Paducah Sun Monday spreads it on pretty thick politically relative to this county. He knows, as well as every other Republican in the county knows, that the dissatisfaction among Republicans in this county, over the night rider questions, and other matters, is about as great as it is among Democrats; and that the Republican candidates will not "get nearly every one of them." Some Republicans love (just now) night riders, but not all, not even "nearly" all.

## Courier-Journal.

"The macadam streets of Louisville," says Mrs. Caroline Bartlett Crane in her report upon "The Sanitary Conditions and Needs of Kentucky," "are in need of much repair. It would be a great advantage if the city could connect all of its parks, and their beautiful Paducah gravel roads, by boulevards such as belt Kansas City, for example, a road made by plowing up the ground to the depth of four inches, mixing it thoroughly with crude oil containing much asphaltum and rolling it with heavy rollers. Such a road may be finished and hand-swept like an asphalt pavement, and lasts well if heavy wagons with narrow tires are kept off of it. It is, of course, much cheaper than asphalt pavement. Oil of a proper kind might be well used to lay the dust of some of our unpaved streets. Why not use oil as freely to abate the dust nuisance of roads as to abate the mosquito nuisance on stagnant water?"

## SUCH THING AS A FIGHT

DID NOT INTERFERE THEM

Some of the young men of Mechanicshurg possessed of bad memories, according to the police, at a quiz this morning after police court to ascertain who is guilty of striking John Allen over the head with a scuffling. A dance was given in Mechanicshurg last Saturday night and a general melee followed in which Allen was struck over the head and his condition was serious for many hours, but he is improving now. Police Judge Cross said City Attorney Martin had a dozen boys before them but the lads had either forgotten or knew nothing of the trouble. The police have not dropped the matter and will dig deeper.

## BUY IMMUNITY FOR LARGE SUM

THE SCHWABS, WHO MADE CASCADIA WHISKY, PAY \$10,000.

Were Charged With Equalizing and Removing Spirits From Warehouse

WITH THE TAX NOT PAID

Washington, Aug. 12.—The seizure of about \$500,000 worth of whisky from the warehouses of the Cascade Distilling company at Nashville, Tenn., will cost the company \$10,000 to obtain the release of the seized spirits and immunity from prosecution for the wealthy distillers. Acting Attorney General Waddy Ellis today fixed this sum as the amount required to reimburse the government for the amount lost in internal revenue tax, and Acting Secretary Reynolds, of the treasury department, approved the finding.

Internal Revenue Collector Sharp made the big seizure of Cascade whisky on April 1, but did not certify the papers in the case to Washington until May 5. Since the latter date the case has attracted national attention. V. E. Schwab, proprietor of the distilling company, his son, G. A. Schwab; W. E. Carroll, manager and assistant manager Reynolds all were arrested and later indicted. The charges against them were "equalizing spirits in warehouse and removing spirits on which the tax had not been paid."

Great Interest Taken.  
On account of the prominence of the Schwabs throughout the south, great interest was taken in the case. They rushed to Washington as their attorney, Frank P. Bond, of Nashville, former collector of internal revenue in that district. He has been here for three months laboring first to have dismissed the charges against the proprietors and officials of the distilling company and then for the release of seized goods with the payment of a fine which they believed to be equitable.

An offer of \$5,000 and the payment of all costs in compromise of the defendant liabilities was made by Mr. Bond. Former Commissioner of Internal Revenue Caper agreed to accept this as settlement, subject to the approval of the secretary of the treasury. Then Collector Sharp came to Washington and protested the law by the Cascade company had been flagrant and he asked that prosecution of the distillers be insisted upon. Falling in this he urged that larger costs be assessed against them. How successful he was in this plea will be seen by the conclusion of the letter of the Acting Attorney General to the secretary of the treasury as follows:

Was Political Issue.  
"After a careful consideration of the matter and in view of the fact that development subsequent to the receipt of your communication show a very much larger tax loss to the government than was at first supposed. I am unable to recommend the acceptance of the amount referred to. In my judgment not less than \$10,000 and costs should be paid in compromise of the liability of Mr. Schwab and his son and for the release of the property under seizure."

The Cascade case has been made a political issue in Tennessee by reason of the contest waged recently over the liquor question.

Whisky Valued at \$1,000,000.  
Nashville, Tenn., Aug. 12.—The Cascade seizure was made on April 1, when 50,000 gallons of whisky valued, if tax paid, at \$1,000,000, and the entire plant of the Cascade Distilling company was taken in charge by Deputy Collectors J. A. Walker and Thomas B. Stapp.

"MISS SANTA CLAUS" DEAD  
Philadelphia, Aug. 12.—Miss Elizabeth A. Phillips, widely known as "Miss Santa Claus," committed suicide today by inhaling illuminating gas.

Pinned to the woman's clothing was a note, which read:  
"I have been in falling health for some time. I have always tried to do my best for mankind."

Miss Phillips enjoyed almost a national reputation by reason of her work at Christmas time among the poor children. Two years ago at her request all the letters written by children and mailed to Santa Claus were delivered to her and the requests of the children, so far as possible, were complied with.

She was the daughter of a prominent merchant of this city.

## BAND CONCERT

**Clever Huse to Pool Creditors.**  
Murfreesboro, Tenn., Aug. 12.—Will Tolbert, the young farmer about 30 years of age, who was thought to have drowned himself a few weeks ago, was seen Monday night about dark near the home of his wife by two or three men who live in the neighborhood. Sheriff J. T. McKnight was at once notified and in company with his deputy, Jim Thirade, and one or two others, he went to the place and made an effort to capture him. There is a hundred or more acres of land, a good deal of which is woods, back of the house his wife occupies and it is supposed that he got wind of the officers coming and hid in these woods. A diligent search was made, but he could not be found. Tolbert is heavily involved and his arrest is desired by those to whom he is indebted. He left a note saying that he had drowned himself and the river was dragged, but his body could not be found. So the officers have been on the lookout for him ever since.

gressives" within the ranks of the Republican party, which is appealing in its conservatism as well as its progressiveness. It is:

"Placing in control at the head of organized Republicanism men who will stand absolutely by platform pledges.

"Struggle for this policy at every convention, local, congressional or state between now and 1912 where there are enough progressive Republicans to make it worth while.

"No general revision of the tariff for perhaps a decade, but revision from time to time in particular schedules, as expert investigation demonstrates to be necessary and at the same time conforming with the broad principle of protection.

"Appointment of an expert tariff commission at the earliest practicable moment to furnish this information to congress.

"And particularly—no opposition to President Taft, whom the progressives believe to have a thoroughly progressive program in hand for his administration—at least until the presidential policy demonstrates the contrary."

There is much dissatisfaction with a general revision. There are many chances for jobbery, that it is scarcely possible that some or all of the schedules will escape. With a competent tariff commission, having all the data before it, and no congressional elections to cause its members to watch the powerful interests at home, we may hope for honesty and good sense. The tariff then can be taken up schedule at a time. This need not mean that constant tariff tinkering will keep the country stirred up and business unsettled. Such a thing is not at all necessary, and if practiced would speedily put an end to the commission idea.

Senator Cummins thinks the action of the Democratic senators and representatives in deserting free trade for the sake of local protection, and fighting protection on general principles has put the minority party out of serious consideration in further tariff issues. It would be pleasing if the progressive Republicans and Democrats, who have deserted free trade, could get together and frame a tariff, that would consider the consumer's point of view where protection of the American wage scale and the industrial independence of the country were not involved.

## SOME STORIES AROUND TOWN

Spooning in the county court house yard has been drowned out by some practical jokers, who declare they have had the time of their lives this week. The shady court house yard with its inviting seats has always been a popular place for the spooners to discuss subjects solely of interest to themselves. Every night this week several young men carried buckets of water to the second floor of the court house. Then they would wait until the couples began to assemble. About the time the spooning began in earnest the lads would throw out the water. The wetting has been so unexpected that some funny scenes have been witnessed by the jokers.

**Harriman's County Home a Palace.**

New York, Aug. 12.—When E. H. Harriman returns from Europe next month it will be to occupy one of the finest country residences in America. The finishing touches are being placed on the house, which stands on Tower Hill, near Arden, N. Y. From this elevation of 900 feet signals were flashed during colonial and revolutionary days of the approach of an enemy. Mr. Harriman has constructed a stone mansion costing more than \$100,000 on the summit of this hill and overlooking a remarkable landscape, which includes a beautiful lake and several rivers. As Mr. Harriman desires privacy, he has purchased surrounding roads so that strangers cannot approach nearer than five miles to the house without permission. **CHINA HAS NOT REPLIED.**

Work, however, on Mukden Railroad progressing.

Peking, Aug. 12.—Telegraphic reports received here from Manchuria are to the effect that the work of reconstructing the Antung-Mukden railroad by Japan from Antung to the north is proceeding rapidly and without friction. According to certain consular information, the work of reconstruction was begun a week before the relations between Japan and China reached an apparently critical stage.

China has not yet given her reply to the latest Japanese note concerning the reopening of negotiations at Mukden of certain points in the matter of reconstruction of this line. It is understood here that the powers have made representations at Tokio, and it is believed that Russia and the other treaty powers are showing activity in Manchuria.

The legations do not regard the difficulty between China and Japan as serious, and some of them supported Japan in her contention that the line be made standard gauge.

## CHILDREN "VERHEXED."

Reading Coroner Investigating Case of Victims of Witch Doctors.

Reading, Pa., Aug. 12.—Coroner Strasser is busy on the case of six infants, who have died since noon yesterday after alleged treatment by witch doctors for summer complaint. He had reported the matter to the district attorney.

Reading is known for its many witch doctors, and there have been cases in court time and again of people who claimed that neighbors "verhexed" them. No sooner does a child become ill in this section than the neighbors rush in and declare the child "verhexed." The result is that a powwow doctor and incantations are sought.

Several of the children who died were simply mumbled over while a red cotton cord was passed over the body. In other cases a bag containing "charmed words" was hung about the neck.

## Man Arrested Said Woman Playing Ghost When He Struck Her.

Scranton, Pa., Aug. 12.—Miss Bridget Nolan an elderly woman, who lived in North Scranton, was slain with a cobblestone early yesterday by John F. Dean, a neighbor. Dean is under arrest and admits the killing. He declares the woman met death while playing ghost.

Dean said that on account of the warm weather Monday night, he did not feel like going to bed so he sat outside his small store. A woman dressed in white came up, jabbed him in the stomach with a broomstick and struck him across the arm. He picked up a stone and hit her. She fell and Dean gave himself up to a policeman.

Miss Nolan owned the building occupied by Dean. She was clothed only in a night gown and in this garb had frightened Dean.

## New Orleans Councilman Confesses He Knocked Thump From Statue.

New Orleans, Aug. 12.—After 25 years of silence Councilman Adam Loreh has confessed to an assault upon Benjamin Franklin.

Several days ago members of the New Orleans city council superintended the moving of the statue of Franklin from its position in front of the city hall to a place on the green surrounding the new Carnegie library.

"The thumb of Franklin is missing," a discriminating member of the council observed. "It certainly is," Councilman Loreh affirmed. Yesterday Councilman Loreh made a confession. When he was a boy, he and several of his schoolmates played one day on the plot whereon the Franklin statue stood. "I threw a wild ball," the councilman admitted, and Ben Franklin's thumb was splintered. I have just now reached the point of courage where I can confess it." The thumb is now being put on the hand. Councilman Loreh is superintending the job.

All of Mr. Stewart's property is left to his daughters and their children.

Mrs. Leeds is in London at present, having recently gone there from her New York home. She was introduced into London society by Lady Arthur Paget.

Mrs. Leeds is reported already to be worth \$30,000,000.

## Indians Adhere to Colombia.

Bogota, Aug. 12.—Cazique Inapiquina, the chief of the Danien Indians, is at present in Bogota offering the adhesion of his tribe to Colombia. The Danien Indians inhabit a strip of territory on the Caribbean Sea that became Panamanian territory with the independence of that republic. Their recognition of the Colombian sovereignty in the past was only nominal, and they have continued the same attitude toward Panama. They have never paid taxes to either state, and because of their active opposition to the presence of outsiders their country today is practically unknown.

## Fish Fry at No. 3.

The firemen of the No. 3 fire station entertained last night with a fish fry and ice cream supper in honor of Charles Green and Charles Smith, two former firemen of New York. The two ex-firemen are spending their vacation in the city, and the fire-fighters showed Kentucky hospitality by a good time.

## S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

**Planters' Association Sales.**

the heads of the sales by the Plant-  
ers' Protective association for the  
week ending August 7, and for the  
season to date:

Mayfield	315	6,898
Murray	85	1,108

**Crop Conditions.**  
Clarksville, Tenn., Aug. 12.—Un-  
der the continued very favorable  
weather, the condition and quality of  
the field crop of tobacco in Mont-  
gomery county shows marked im-  
provement and a full yield per acre  
is expected. The crop will commence  
ripening in two weeks.

**Ashland City, Aug. 12.**—The con-  
dition of the growing crop, taken as  
a whole, is in fairly good shape, the  
crop being about 80 per cent. of last  
year's crop. No tobacco has been cut  
yet in this county; however, a few  
crops are ripening and some will be  
cut the latter part of the present  
week. Very little of the crop will do  
to cut during the present month but  
the bulk of the crop in this county  
will be cut and housed in September.

**Paducah, Ky., Aug. 12.**—The grow-  
ing crop is doing fairly well. We had  
some heavy washing rains that did  
some damage in the low lands, but  
we have had a week of clear, warm  
weather, just what the crop needed.  
A considerable portion of the crop  
has been topped.

**Marion, Ky., Aug. 12.**—This coun-  
ty had good rains on July 25 and 26

The tobacco crop is looking better  
at this time of the year than for  
many years. Crop about half topped.  
No worms to hurt yet.

**Hopkinsville, Aug. 12.**—Reports  
from over the county show that the  
growing crop of tobacco is in only  
fair condition as a result of the fre-  
quent and heavy rains of the past  
several weeks, and that the acreage  
is somewhat under the average.  
Mayfield, Ky., Aug. 12.—The rains  
have destroyed crops of tobacco. In  
some instances not a hill of tobacco  
left was of any value. The loss will  
reach many thousands of dollars and  
many farmers are left without a  
crop.

**Livestock.**  
Louisville, Ky., Aug. 12.—Cattle—  
Receipts 146 head; for three days  
2,057 head. The market was rather  
quiet today, and but little change  
could be noted in conditions. Choice  
finished butcher cattle were in fair  
demand; medium and common grassy  
half fat kinds dull and draggy. The  
feeder and stocker market was quiet  
good demand for the best, others a  
little slow. Bulls steady; canners  
dull; milk cows unchanged. No  
heavy shipping cattle here; feeling  
steady.

**Calves.**—Receipts 265 head; for  
three days 567 head. The market

6.50; common, \$2.50 @ 4.  
**Hogs.**—Receipts, 2,171; for 3  
days, 5,684. The market was very  
laid; Charles S. Denen, Illinois;  
slow in opening, local packers had  
a good supply on hand, and other  
markets were lower, order buyers in-  
terested; 15 @ 20c. Choice  
different and prices slumped 15 @ 20c.  
Selected, 165 pounds and up, \$7.70;  
130 to 165 pounds, \$7.50; pigs rang-  
ing from \$5.25 to \$7.20; Youghs \$6.75  
down. The market closed very slow  
slip; some hogs being carried over that  
a salesman refused to sell at the de-  
cline.

**Sheep and Lambs.**—Receipts 2,940  
head; for three days 9,283 head.  
The lamb market ruled steady on  
prime lambs; best \$7.25 @ 7.50; sec-  
onds were lower at \$5 @ 5.25; culls  
\$3 @ 3.75; fat sheep slow at 4c down;  
vicious sheep dull. Stock trade  
very slow, but little doing. Demand  
exceptionally light.

**St. Louis, Mo., Aug. 12.**—Cattle—

tive muttons \$3.50 @ 4.50; lambs

## CONFERENCE OF TAX AUTHORITIES

**FULL PROGRAM FOR MEETING

**States' Most Noted Officials and Ex-  
perts Will Discuss Problems.**

**CANADA TO HAVE DELEGATION**

Louisville, Aug. 12.—With the date  
for the third international confer-  
ence on state and local taxation only  
a little more than one month away,  
the full program of the event, an-  
nouncing the names of all governors  
who will attend, as well as the sub-  
jects upon which the various speak-  
ers will address the body, was issued  
yesterday. No meeting of greater  
importance has ever been held in  
Louisville than that which the tax  
conference will produce, and interest  
in the event is more than nation-  
wide.

All committees having in charge  
arrangements for the convention and  
of entertainment for the delegates  
have settled down to active daily  
work until the hour of the coming of  
the delegates, each of whom is said  
to be thoroughly familiar with the  
various phases of the subject which  
will be discussed.

Around a central body, composed  
of thirty-two governors and five pre-  
sidents of Canada, a host of the na-  
tion's most prominent business men  
and officials will gather in this city  
and discuss questions relating to im-  
provements in the taxation system.  
Many notable speakers will address  
the gathering during its session in  
this city, and it is probable the inter-  
national conference will attract at-  
tention in all quarters of the globe.

Of great interest is announcement

ago, copies of which were received

### BEAR PARTICULARLY IN MIND.

Total length of tour, 2,636 8-10 miles; roads much worse than general average of highways.  
(\*Not including motor buggy having Diamond Motor Buggy Solid Tires, whose record was perfect, or  
truck which also used Solid Tires.)  
That the above record is figured impartially and based on strictly reliable observations. (Detailed figures  
sent on request.)

Many conflicting claims as to tire performances in Glidden Tour will be made. Read them all, but con-  
fidence where you will, but the above is the record reduced to dollars and cents. Representations will come to you  
that such and such number of cars went through on original casings. So did the cars on Diamond—every one of  
them—but not on all four original casings, in every instance.

### AND NOTE THIS

No Diamond casings or tubes suffering injury were repaired enroute and returned to cars to permit of  
advertising a finish on original casings or tires. It is known this was done in various instances.

### REMEMBER

No penalties were or could be imposed for tire troubles. Tires could not contribute to or detract from a  
car's chance of winning the Glidden or any other trophy.

Any contestant was at perfect liberty to change tires at any time without penalty.

A perfect or imperfect score bore no relation to tires, one way or another.

The only measure of comparative tire efficiency available in the whole tour is that of cost for the mileage  
delivered. But what measure is better suited to determine relative tire values?

### AND REMEMBER

That scores of other public events—and thousands upon thousands of individual tests have confirmed the annual  
Glidden Tour verdict—Diamond Tires are the best and the most economical.

Take the 1,000 mile test made by the Chicago Motor Club, a conspicuous Diamond victory.—take the  
six-months' Upkeep Contest of a well-known automobile manufacturing concern.—also won on Diamond Tires—  
take endurance runs, sealed Bonnet contests—take any test you will—IN POINT OF DURABILITY DIAMOND  
TIRES HAVE NEVER SUFFERED A DEFEAT.

### REMEMBER ALSO

That although the course of this year's tour was nearly 1,000 miles greater than in 1908, and the roads worse,  
Diamond Tires made the same good showing they made last year, and, conditions considered, a still lower mile-  
age cost.

Advertising Which Paid  
The business world was electrified  
this week at the outcome of  
that one-inch advertisement, which  
Jones & Laughlin ran in a paper of  
small but high-grade circulation re-  
cently, and which brought their  
\$22,000,000 order from the Russian  
government. Pretty good invest-  
ment that, from a one-inch adver-  
tisement—\$3,000,000. There might  
be manufacturers who would not ex-  
pect to duplicate this order them-  
selves, believing that such an ac-  
complishment was one grand excep-  
tion proving the rule that advertis-  
ing was a profitable investment.

TROPHY AT ONWENTISIA.

Led a Field of 100—Women to De-

**MISSER HOLMER AND AINSIE**

Chicago, Aug. 12.—Paul Hunter,  
of Midlothian, won the low medal  
score trophy of the 36-hole qualifi-  
ying round of the annual open tourna-  
ment at Onwentisia club. He led a  
field of nearly 100 starters with a  
score of 149. The 18-year-old Mid-  
lothian player made a brilliant 74 in  
the first 18 and followed that with  
75.

Charles Evans, Jr., of Edgewater,  
the 18-year-old western amateur  
champion, finished second with 151.  
Evans tied with Hunter with 74, but  
yesterday he took 77. R. H. Mc-  
Elwee, of Onwentisia, had the low  
score, 74, and this combined with his  
78, gave him third place with 152.  
Hunter duplicated Evans' perform-  
ance, getting 11 successive fours.

**Women to Decide It.**  
Exmoor Club, Highland Park, Ill.,  
Aug. 12.—As the result of the semi-  
finals Miss Myra Holmer, of Mid-  
lothian, will oppose Miss Sallie Ainsie,  
of Westward Ho, in the 18-hole final  
for the women's city golf cham-  
pionship here. Miss Ainsie, who is the  
present title holder, won from Mrs.  
W. L. DeWolf, of Onwentisia, 3 up  
and 1 to play; Miss Holmer defeated  
Mrs. E. T. Perkins, of Glenview, 2  
up and 1 to play.

**Travis Was Off.**  
Manchester, Vt., Aug. 12.—With  
only two scores below 80, although  
the greens were in good condition  
and the weather ideal, the qualifying  
round of golf for the first prize cup  
on Kewanee club links was com-  
pleted. Frederick Herreshoff, of Ek-  
wanee, won the medal with 76 for  
the 18 holes. Next was Henry H.  
Wilder, the intercollegiate champion,  
with 77. Walter T. West, of Phila-  
delphia, was third, with 80.

Walter J. Travis was badly off his  
game and qualified in the middle of  
the first division of 32 with a score  
of 85.

**Iowa Tournament.**  
Ottumwa, Iowa, Aug. 12.—Most  
of the matches in the first match round  
of the Iowa State Golf association  
tournament were won by large mar-  
gins. The 16 survivors of yester-  
day's 36-hole contest will play the  
second match round of 18 holes to-  
day. William Sheehan, of Des Moines,  
city champion, defeated William Sowers,  
also of the Hyperion club, 4 up  
and 3 to play. Albert McKee, of  
Grandview the medalist of the tourna-  
ment, in a runaway match defeated  
H. W. Merrill, of Ottumwa, 13 and  
11.

**ON FOOD**  
The Right Foundation of Health.

Proper food is the foundation of  
health. People can eat improper  
food for a time until there is a sud-  
den collapse of the digestive organs,  
then all kinds of trouble follows.  
The proper way out of the diffi-  
culty is to shift to the pure, scientific  
food, Grape-Nuts, for it rebuilds  
from the foundation up. A New  
Hampshire woman says:

"Last summer I was suddenly  
taken with indigestion and severe  
stomach trouble and could not eat  
food without great pain, my stomach  
was so sore I could hardly move  
about. This kept up until I was so  
miserable life was not worth living.  
"Then a friend finally, after much  
argument, induced me to quit my  
former diet and try Grape-Nuts.  
"Although I had but little faith  
I commenced to use it and great was  
my surprise to find that it could eat  
it without the usual pain and dis-  
tress in my stomach.  
"So I kept on using Grape-Nuts  
and soon a marked improvement was  
shown, for my stomach was per-  
forming its regular work in a nor-  
mal way without pain or distress.  
"Very soon the yellow coating dis-  
appeared from my tongue, the dull,  
heavy feeling in my head disap-  
peared and my mind felt light and clear;  
the languid, tired feeling left, and  
altogether I felt as if I had been re-  
built. Strength and weight came  
back rapidly and I went back to my  
work with renewed ambition.  
"Today I am a new woman in  
mind as well as body and I owe it all  
to this natural food, Grape Nuts."  
"There's a Reason."  
Look in pkgs. for the famous lit-  
tle book, "The Road to Wellville."  
Ever read the above letter? A new  
one appears from time to time. They  
are genuine, true, and full of human  
interest.

**DENY "JOKER"**  
ELECTION OFFICERS SHOULD BE  
NAMED BY CO-COMMITTEES.

Publication of Fact Has Surprised  
Radicals, Who See That Much  
Power Has Been Vested.

Nashville, Tenn., Aug. 12.—State-  
wide Democrats insisted that there  
was no "Joker" in the new primary  
law. They say it was never intended  
to be any other way than that the  
election officers should be named by  
the respective county committees.  
They declare that the naming of  
these officers could not have been  
taken away from the people; that is,  
from their representatives, the coun-  
ty committees, and still have been  
Democratic, and that it was not their  
intention to build up any corrupt sys-  
tem of handling elections.  
Nevertheless, the publication of the  
fact has considerably exercised the  
more radical state-widens, as they be-  
lieve they see in the omission great  
advantage to the Patterson men.

**WOMAN 86 YEARS OLD SWIMS  
AND DIVES LIKE A REAL SEAL**

Portsmouth, N. H., Aug. 12.—  
During the last week the summer  
cottage along the Rye beach coast,  
among whom are many expert swim-  
mers, have gathered at Wallis Sands  
to witness the feats performed by  
Mrs. Patrick Burns, of Dover, N. H.  
Mrs. Burns, who is 86 years old, has  
no equal as a swimmer at these  
beaches and takes a dip in the waters  
of the Atlantic every fair day.  
The daily sea bath has been her  
custom for years and no life saver on  
the coast can teach her anything  
about cleaving the waves. She is an  
artist at floating, diving and swim-  
ning on her back, and is as graceful  
in the water as a seal. She delights  
mostly in diving, and can make as  
pretty a plunge as the instructor in a  
swimming pool.  
Recently a girl bather at one of  
the beaches lost a valuable back comb  
from her hair and several of the men  
in the water at the time attempted to  
recover it but failed. Mrs. Burns  
then came on the scene and after a  
few graceful dives brought up the  
lost article, while the crowd on shore  
vigorously applauded the act. She  
resides on Chapel street in Dover.

**STANDARD OIL  
COMPANY HIT**  
MUST PAY AD VALOREM ON OIL  
IN IMPORTED TIN.

Had Not Standard Asked for Draw-  
back Its Oil Would Have Been  
Admitted Free.

**LARGE SHIPMENT ON THE WAY**

Washington, Aug. 12.—The Stand-  
ard Oil company will have to pay a  
duty of 10 per cent ad valorem on oil  
it has imported into the Philippine  
Islands since the new tariff bill be-  
came effective, although oil under  
that measure is admitted into the  
United States and the Philippines  
free of duty.  
This imposition of the duty results  
from the fact that the oil question,  
although of the "growth and product  
of the United States," it was put up  
in cans made from imported tin on  
which the Standard had accepted a  
drawback in view of the fact that the  
tins were for the export trade.  
Under a decision by Col. George C.  
Colton, collector of customs for the  
Philippines, the contents of such con-  
tainers are subject to the same duty  
as was applied to the container when  
originally imported.  
Had the Standard not asked for and  
received the drawback on the  
used in making its cans, its oils, to-  
gether with the container, would  
have been admitted into the Philip-  
pines free of duty.  
The decisions will apply to large  
quantities of canned meats, vege-  
tables and fruits shipped to the  
Islands, as well as other products.

with J. S. Warford, the young man  
arrested for forgery, for El Reno.  
Warford agreed to return without re-  
quisition papers. It is said that War-  
ford is not wanted so badly for the  
charge of forgery, but that he is an  
important witness in some graft  
prosecutions that will follow, and the  
officials wanted to be sure that War-  
ford would be present.

It Had a Luxuriant Suit of Straight

The Father of his Country con-

neath his queue wig. Many now  
wish the old fashion were in vogue,  
to conceal thinned hair or baldness.  
Yet no one need have this hair nor  
be bald, if he cure the dandruff that  
causes both. Dandruff can not be  
cured by scouring the scalp, because  
it is a germ disease, and the germ  
has to be killed. Newbro's Herpi-

other hair preparation will. "De-

**A Promise to  
Pay**

Would you accept a stranger's  
note? No. Then why accept  
from a stranger any other  
promise to pay? A Fire insur-  
ance policy is such a promise.  
Ought you to accept it with-  
out knowing all about the  
Company? Your usual busi-  
ness confidence is based on  
knowledge. Why make an ex-  
ception in that part of your  
business which deals with in-  
surance? A name is worth  
nothing on any kind of a  
promise to pay unless it is  
backed by character and re-  
sources.

We favor insurance knowl-  
edge, particularly about our  
companies. Their promises to  
pay have never gone to prot-  
est. Their obligations to its  
policy holders are backed with  
such a good reputation and  
such ample financial resources  
that the more you know about  
them the more you will want  
protection by their policies.

**KING ALF WANTS TO RACE.**  
Spain May Challenge United States  
for Contest for America's Cup.  
London, Aug. 12.—Reports are  
current in sailing circles here that  
King Alfonso of Spain, is a possible  
challenger for the America's cup.  
This rumor apparently is based on  
the fact that the King, during the  
construction of his yacht Hispania  
which was built in Spain from de-  
signs by Hife, evinced curiosity re-  
garding the conditions governing the  
contest for this trophy.

**IMPROVEMENT ON DIOGENES.**  
Washington Judge Has Searchlight in  
His Court.  
Washington, Aug. 12.—A local  
police judge has mounted a search-  
light upon his desk to detect perjury.  
Long experience upon the bench has  
taught him that from the class of  
prisoners brought before him it is  
difficult to obtain trustworthy testi-  
mony. Searching for a cure for this  
evil, he began to experiment with  
light.  
An electric light with a strong re-  
flector was brought into use and as  
the police prisoners were brought to  
the witness stand he turns on the  
inpromunt searchlight. His strong  
rays enable the judge, sitting in the  
shadow, to follow every facial ex-  
pression of the offenders, and it is found  
that perjury has been greatly re-  
duced.  
The judge, who is a student of  
criminology reads the faces of his  
visitors and, in a way, their thought  
and upon the appearance of an effort  
to escape the consequences of the  
truth he promptly checks them.

**A Promise to  
Pay**

Would you accept a stranger's  
note? No. Then why accept  
from a stranger any other  
promise to pay? A Fire insur-  
ance policy is such a promise.  
Ought you to accept it with-  
out knowing all about the  
Company? Your usual busi-  
ness confidence is based on  
knowledge. Why make an ex-  
ception in that part of your  
business which deals with in-  
surance? A name is worth  
nothing on any kind of a  
promise to pay unless it is  
backed by character and re-  
sources.

We favor insurance knowl-  
edge, particularly about our  
companies. Their promises to  
pay have never gone to prot-  
est. Their obligations to its  
policy holders are backed with  
such a good reputation and  
such ample financial resources  
that the more you know about  
them the more you will want  
protection by their policies.

## GROCERS' PICNIC PROVES SUCCESS

LARGE ATTENDANCE AT THE SPRINGS YESTERDAY.

Several Speeches Made and Best of Feeling Prevailed Among the Merchants.

### THE ILLINOIS CENTRAL PICNIC

The first annual picnic held by the Paducah Retail Groccerymen's association yesterday at the Starr Springs was marked by an attendance of between 300 and 400 people and was an enjoyable success from both a social and business standpoint.

Many of the retail groceries were closed yesterday afternoon. The groccerymen, accompanied by their families and friends, went out to the springs, a short distance from the Union station on the Pool road where they spent the afternoon, enjoying a big barbecue, music and speeches. Every retail grocery in Paducah was represented and the spirit manifested by the wholesale grocceries in sending out representatives was a delight to the retail men.

Switzer's band furnished music during the day and in the afternoon the crowds gathered together under the shade trees to hear speeches by citizens and officials of the city. County Attorney Alben Barkley led off with a speech, telling of the object of the annual picnic and the purpose of the groccerymen to come into friendly relationship with the people. He was followed by Gus G. Singleton Col. Joe E. Potter and Police Judge D. A. Cross. U. S. Waleton, the well known grocceryman, concluded the speech making by a few remarks of interest. The groccerymen and friends returned home late in the afternoon much pleased with the first picnic.

It is planned by the groccerymen's association to hold a similar picnic every year, but no spot for the one next year has been designated. Judging from the large attendance at the first one it is believed a much larger crowd will attend hereafter. Mr. Charles Houser is president of the association.

### Railroad Picnic.

A date for the Illinois Central railroad picnic has not been set as the coaches of the railroad are in use now. Nearly every railroad is running excursions during August, and every available coach is being used for the transporting of the excursionists. The railroad company will not go to the expense of renting coaches from other railroads but will wait until the demand for coaches ceases, and then turn over the equipment to the employees for a day's outing. The picnic will be held some time in August, however it is expected.

Croquet is anything but a quiet game during some of the numerous pauses.

Philippine and Foreign Service Men Have Not Got Together.

Pittsburgh, Pa., Aug. 12.—Today's session of the joint convention of the army of the Philippines and the Veterans of Foreign Service did not develop the expected affiliation between the bodies as was predicted when the delegates arrived here Tuesday.

On account of objections on the part of members of the Army of the Philippines organization who did not wish their identity entirely obliterated by the combination with the Veterans of Foreign Service, the question of affiliation was not brought to a vote.

A joint public session of the two bodies was held tonight at Carnegie Hall. Addresses by prominent army men marked the gathering.
